A must-have for the beach

Featuring an exciting combination of ruggedness and top performance

Wetzlar, February 2010. The DC 9011 WP sets new standards in digital photography with MINOX. Boasting a sturdy body that is waterproof up to a depth of three meters this compact digital camera repels dust, water, sand and salt. Specially designed for extreme conditions and rough environments it is a must-have for those who like to lap up the sun on the beach, for lovers of water sports and outdoor enthusiasts. It also represents a highlight for all extreme athletes. Apart from opening up new opportunities when out canyoning, diving or sailing, the MINOX DC 9011 WP excels as the perfect photographic tool for daily use, featuring an outstanding resolution of 9 megapixels that guarantees brilliant images that are rich in detail. This means that the user can also count on perfect enlargements, even in poster size.

The camera's ergonomic, slim and sporty dimensions of just 94 x 63 x 24.4 mm make it a perfect companion in every way. When shooting pictures underwater the powerful 2.5 inch color monitor really stands out, providing clear visibility of the composed subject, even underwater. The menu layout is logical and straightforward. There are 8 subject programs to choose from, depending on the situation.

The scope of delivery of the new MINOX DC 9011 WP includes a camera pouch, strap, software, USB-cable and 2x AAA batteries.
