

***Dr. Jerry Ng Kok Loon***  
***CEO***  
***iCo-op.net Pte Ltd***

Dr. Jerry is an academic, researcher, civil servant and entrepreneur. He was the managing director/executive director at Ultro Technologies Ltd before starting iCo-op. He taught engineering at Nanyang Technological University (NTU) for 7 years where he was a member of the NTU Council and Academic Board. He headed the Technology Development at Singapore Institution of Standards & Industrial Research for 2 years before joining Ultro Technologies.

Among his achievements were the National Young Scientist and Engineer award from the Science Council (now called A\*STAR) and the Edwin Walker prize from the Institute of Mechanical Engineers, UK. Among many of his legacy projects are: the largest fully automated self-supported warehouse; the first trackless automated guided vehicle system with robotic battery charger; and others. He has served as chairman and member in many public and professional organisations (International Federation of Robotics, Institution of Engineers Singapore, Singapore Industrial Automation Assoc, PSC President Scholarship Selection Board, Innovators and Entrepreneurs Association...)
